

MARINER CRUISES WHALES & SEABIRD TOURS

Mariner Cruises has been offering Nova Scotia whale watching and birding tours off Brier Island, in the Bay of Fundy since 1994. Their vessel is the Chad and Sisters Two, a sturdy Cape Island-style Certified Passenger Vessel, that meets or exceeds Canadian Coast Guard safety standards and guidelines. She is 50 feet long and fiberglass constructed. The vessel is equipped with washroom facilities, an extended awning for the protection of passengers against the sun and rain and 'a viewing stand', that offers unrestricted viewing of nearby whales and seabird.
